1 x Audio
1 x VGA

Meet our E-Saver Series !
Heavy on Specifications,
Lite on Price.

We put together a specifications list designed to cover the most demanding project requirements and at the same time deliver extreme budget savings!

The E-Saver series shares the same concept we based our Platinum range on: Superior price and performance.

Powered by the Intel 945GSE Chipset and Intel Atom N270 1.6GHz. CPU our E-Saver models provide power and energy saving technology. An optional Core 2 Duo CPU is available for additional power if needed.

The TFT Touchscreen supports 16.2 million colors. Two Gigabit Ethernet ports, four USB ports and two serial ports are standard on this industrial grade PC.

Standard 2 GB DDR memory, 80 GB hard disk space and a 44-pin IDE connection provide sufficient memory capability.

With a choice of various operating systems such as Windows XP Professional, XP-Embedded, Vista or Linux (see software price list) we are sure to offer a system meeting your needs.

Product confidence is expressed in our market-leading 24-month warranty period.
