SENSOR TECHNOLOGY FOR MOBILE EQUIPMENT
Hard working mobile equipment requires sensors that can survive the most demanding environments. Scorching heat, freezing temperatures, rain, road salt, corrosive chemicals, radio frequency noise, and the highest levels of shock and vibration are just another day on the road.

Designed with mobile equipment applications in mind, Pepperl+Fuchs provides the toughest and most versatile sensors on the market. When your equipment has to operate in extreme environments, choose the sensor that withstands the abuse. Visit us at: www.sensing.net/me1
**CONCRETE MIXER**

- **Fifth Wheel Position**
  - Fifth wheel is locked in the "up" position
  - Survives extreme shock and vibration

- **Chute Position**
  - Confirms chute is in center position
  - Allows fifth wheel to be lowered or raised

- **Drum Rotation**
  - Counts drum revolutions
  - Ensures proper mixing

- **Dump Bed Down Position**
  - Provides feedback when dump bed is down
  - 100 V/m radio frequency immunity

---

**DUMP TRUCK**

- **Brake Pedal Position**
  - Prevents transmission engagement while braking
  - Initiates brake light

- **Fifth Wheel Position**
  - Fifth wheel is locked in the "up" position
  - Survives extreme shock and vibration

---

**EXCAVATOR**

- **Cab Position**
  - Counts pulse to determine rotational position
  - Determines home position

- **Inclination detection**
  - Determines degree of tilt relative to the earth
  - Automatic cab leveling

- **Attachment Detection**
  - RFID of attachment tool
  - Inductive sensor monitors attachment tool presence

---

**HARVESTER**

- **Inclination detection**
  - Determines degree of tilt relative to the earth
  - Automatic cab leveling

---

**THE TOUGHEST & MOST VERSATILE SENSORS IN THE INDUSTRY**

Sold by AA Electric 1-800-237-8274 • Lakeland, FL • Lawrenceville, GA • East Rutherford, NJ

Pepperl+Fuchs sets the standard in quality and innovative technology for the world of automation. Our expertise, dedication, and heritage of innovation have driven us to develop the largest and most versatile line of industrial sensor technologies and interface components in the world. With our global presence, reliable service, and flexible production facilities, Pepperl+Fuchs delivers complete solutions for your automation requirements—wherever you need us.
