

DORNER[®]

By Columbus McKinnon

Transforming **Conveyor** Automation

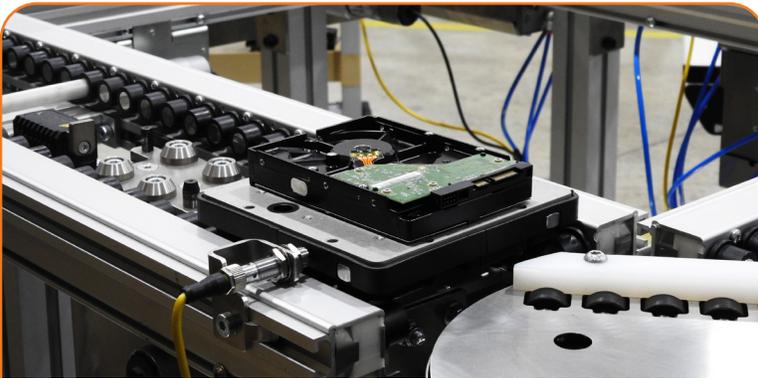

Industrial & Automation

- Light weight, medium duty & heavy duty conveyors
- Industrial automation
- Range of options & configurations
- Easily customized
- Industry-best product transfers

Flexible Chain

- Flexibility in design
- Fast & easy installation
- Ideal for curves, inclines & declines
- FlexMove configurations include helix, wedge, alpine, twist & more!

Pallet Systems

- Edge roller, flexible chain & dual strand conveyors
- Assembly automation & robotics integration
- Simplified product flow
- Increased efficiency
- Reduced downtime

Sanitary Stainless Steel

- Designed for fast & effective sanitation
- Industry leading hygienic designs
- FDA approved materials
- BISSC & 3A certified
- Wipe down & full washdown systems

Fast & Simple to Use
Online Configurator

Designed for
Easy Integration

Superior V-Guided
Belt Tracking

Industry Leading
Product Transfers

Offering Precision Conveyance for Nearly 60 Years

**Complete
Service & Support**

**Industry Best
Lead Times**

**In Stock Replacement
Parts & Belts**

Online Configurator

Engineer simple or complex conveyors to meet your needs in minutes. The industry leading tool delivers a complete 3D CAD assembly model for instant validation of fit and design.

Engineered Solutions Group

From modified standard conveyors to complete custom designs, our Engineered Solutions Group provides innovative solutions that increase your line's performance and achieve better results.

Industries

- Automation & Robotics
- Packaging & Logistics
- Food Processing
- Material Handling
- Pharmaceuticals
- Integrators

Applications

- Accumulation
- Indexing & Positioning
- Merge, Divert & Sorting
- Rejecting & Depositing
- Elevation & Line Egress
- Product Flow & Control

Engineered Solutions

- Inline Labeling & Printing
- AMR/AGV Conveyors
- Bottomless & Pinch
- Flippers & Rotators
- Magnetic & Vacuum
- Custom Conveyors
